Profile

Front-End Developer with experience in the development and modernization of web applications using Angular, AngularJS, TypeScript, and modern web technologies. I have participated in digital transformation projects for the logistics and customs sectors, contributing to the migration of legacy systems to modern architectures and the development of new features with high operational impact.

Experience

NTT DATA Business Solutions (ex Conexos)

Front-End Developer | September 2023 - May 2026 | **Remote**

Front-end development with AngularJS and Angular 19, architecture migration, TypeScript introduction, interface development.

Conexos

Front-End Developer - Internship | September 2022 - September 2023 | **Remote**

Development with AngularJS, HTML, CSS, JavaScript. UI implementation with Bootstrap, team support, bug resolution.

Education

Unicesumar

Bachelor's Degree in Software Engineering | 2023 | **Paraná, Brazil**

Degree in Software Engineering from Unicesumar, focusing on software development and project management.
